#### TRODAT - ALWAYS AN ORIGINAL:

Trodat products are thoroughly original: More than 40 years ago the stamp industry was revolutionised by the introduction of the first plastic self-inking stamp (the Printy 1). To this day more than 400 million Printy stamps have been sold worldwide, followed by a stream of innovative products from different product groups.

With all of its products and subsidiaries Trodat offers everything in the world of stamps. This value-added philosophy has made business partners and customers all over the world happy for many years.

Trodat stamp products are innovative and suitable for all applications. In order to offer stamp products that always produce clean and beautiful impressions, the sister company Trotec Laser GmbH develops the right technology for stamp producers. The in-house shop solution uTypia can be used by both business and private customers to customise and buy the perfect stamp online, which, since the launch of Trodat Multi Color, can even be multicoloured!

Continuity, trust and innovation are characteristics of the cooperation that exists between Trodat and its sales partners in more than 150 countries worldwide and the same has been true for more than 100 years.

- + Trade Symbol. Offer your customers unique impressions with colourful symbols and company logos which emphasise their corporate identity.
- + Process security and repeat orders. The patented Multi Color manufacturing process guarantees the exact colour and shape throughout the production process and for repeat orders, and that of the replacement ink cartridge.
- + Top quality impression. Your multi-colour impression in line with Trodat's high standard of quality.
- + Variety of colour. Include any of the 15 available colours for your impression design.

### THE WAY IT WORKS

#### TAIL ORMADE

Individual colour and design requirements are a Multi Color Impression specialty. The text and logo fields can be arranged as required.

#### **PRECISION**

The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

#### QUALITY

The result is a set of clean impressions to the usual Trodat level of quality.\* \*Cartridges can also be inked manually.

1. Clean replacement of ink cartridge thanks to special grip zone

2. Exact placement of impressions thanks to the panoramic viewing

3. Lightweight & small, perfect when you are on the move

4. The usage of Trodat materials in combination is guaranteed to have a high-quality impression.

1. Simple mounting of text plates thanks to the raised position of the text plate holder

2. Easy to customise! Countless options for your logos and individual prints on the stamp housing

## TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

#### WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE, PSI E-STYLE AND SUPER SLIM?

#### Improved Die Box:

Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

Trodat Flash Machine:

Quick & easy operation not only foam, but whole die box can be flashed at once.

Convenient Inking:

Fast & clean – no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

1-Step Assembly Maxlight:

The snap-in die box provides the simplest assembling possible.

1-Step Assembly PSI:

The slide-in die box provides the simplest assembling possible.

No Assembling Steps Super Slim:

Super Slim can be flashed and inked as a whole – no extra die box needed. Only the index card needs to be added as always.

For ordering and delivery of these products, please contact your Trodat sales consultant.
